

Benefits to Your Library

PERSONALIZED Support

Our staff will help you through the set-up process and upload the data that is currently available through our integrated services.

SAVE Valuable Time

Your library staff can spend weeks each year accessing, consolidating and maintaining serials usage and cost. With this user-friendly interface your staff can gain back hours of their valuable time.

MONITOR Library Spending

Uncover hidden cost savings! By uploading your journal pricing you can quickly access cost-per-view information allowing you to quantify the value of your purchases.

FLEXIBLE Usage Reports

Statistics are harvested monthly with many standard and custom reports available. View comparisons of up to 3 years of statistics and cost data. Integration with CoxNet provided.

WT Cox Now Provides A Statistic & Analytic Service for Libraries

Securely track and manage your e-Resources usage statistics with **eStats** from WT Cox Information Services.

The process is easy! Simply provide your publisher admin logins and get access to consolidated usage, cost and other reports directly from your publisher vendors.

eStats will manage your publisher admin logins and journal pricing information within this user-friendly interface while consolidating COUNTER-compliant statistic reports across all of your publishers.

Making Educated Collection Decisions

Get more value from your acquisitions with content usage data that can help you prioritize the content purchases that matter most to your patrons. With content usage and spend analytic tools, you can easily identify the content your patrons use, assess spending across subscriptions, analyze usage trends, and quantify the value of your content purchases.

This cost-effective statistical tool is available to current and prospective WT Cox serials customers.
